presents

School-based Occupational Therapy: Solutions for Multi-tiered System of Support

June 11, 2022

Facilitator: Jean Polichino, MS, OTR, FAOTA

Speaker: Lou Ann Hintz, PhD, OTR

Current occupational therapy literature and federal legislation support school-based occupational therapists' participation in multi-tiered system of support (MTSS). Yet many school-based occupational therapists struggle to implement. This interactive virtual webinar will share recent research which describes teachers' experiences with occupational therapists who participate in MTSS and illustrate precisely how some occupational therapists across the nation are having success with MTSS. Solutions will be shared to support occupational therapists in advocating for their role in MTSS, outlining their role and scope, and establishing documentation for data collection.

10:00 am	Introduction
10:05 am	Participants' Reflections
10:15 am	MTSS Definition and Legislation
10:30 am	MTSS Supporting Literature
10:45 am	Recent Research: What Teachers are Saying
11:00 am	MTSS Artifacts: How OTs are Participating
11:15 am	Solutions
11:35 am	Break Out Rooms for Problem Solving and Sharing Ideas
11:45 am	Resources
11:50 am	Questions
11:55 am	Closing Comments
